January 26, 2022

Dear CKES Families,

CKES has recently received rapid antigen tests to distribute to families. We are preparing a system of responsible distribution and appreciate your patience as we sort out the details.

Our goal is to get these tests into the homes of families ASAP. Because the tests cannot be frozen, we are asking that **one family member** comes to the school between **9:00am – 4:00pm** to pick up their tests. We plan to distribute two tests for each family member.

As always, when you enter our school, please wear your mask. A table will be set up in our foyer. Do not move beyond this table, and only come into the school if you are healthy.

We will operate this table **starting mid-morning today until Friday at 4:00.**

We hope all families will be able to stop in to get their tests within this time period.

Please be patient if there are line ups and wait outside if the foyer appears crowded.

Thank you for your patience and for keeping our school as healthy as possible.

Sincerely,

Jeanette Gallant

Principal,
CKES
