## 2016-2017 SCHOOL SUPPLIES LIST (Gr. K-7)

### Personal Items Required from Home:

- Back pack
- Lunch box
- Inside runners (no black marking soles)
- Religious Education Fee \$15.00 per student (\$25.00 per family). Please make cheques payable to "Office of Religious Education."

The required items from home and cost to parents will be reduced from previous years as a result of a grant from the Yukon Government. This initiative will cover up to \$100.00 for each student attending our school. Our School Council will be ordering essential school supplies (including crayons, binders, agendas, tissues and locks etc.) based on lists supplied by our classroom teachers. Teachers will then ensure that all students have the essential school supplies they require for learning throughout the school year.

After ensuring that essential school supplies will be provided to each student, the School Council expects to have additional funds remaining. The School Council has decided to use part of this money to cover the supply costs for the Religious Education program for our students, which has helped to reduce the Religious Education fee for this coming school year. For the 2016-2017 school year, the Religious Education Fee, will be reduced to \$15 per individual student or \$25 per family. The reduced Religious Education fee is still required to cover the non-material costs of delivering the Religious Education program to our students.

At the end of the school year 2016-2017, the school council and the Department of Education will discuss how the grant was spent, how it supported our students and if we need to make any changes to how it was spent. Please note that if this grant for school supplies is not continued past next year, the full Religious Education Fee will need to be increased at that time.

If you have any questions, please contact Gordon Miller or Susan Woolridge.

Thank you for your support,
