

Christ the King School

Delivery of Physical and Health Education Curriculum

Dear Parent or Guardian,

Yukon schools teach sexual health education as part of the Physical and Health Education curriculum for K to 9, and Planning 10.

To help students learn how to be safe and healthy, we follow these principles:

- A respectful environment
- A culture that supports sexual health
- Clear standards and guidelines to assist teachers in the classroom
- Training for teachers
- Enough classroom time

We understand that some parents/guardians may not be comfortable with their child learning material related to sexual health in the classroom.

You may choose to opt your child out of the class instruction of the reproduction, sexuality and sexual health areas of the Health and Physical Education curriculum and deliver this material to your child in an alternative way.

If you wish to opt your child out of class instruction in this area, please check the box below and sign and return this form to the school by January 26th. This program will be delivered at Christ the King School in grades K to 7 between Feb 1st and May 30th, 2018.

If you do not sign and return this form to the school, your child will be included in all class lessons for Physical and Health Education.

You can contact the school for more information about these topics, learning outcomes and options for alternative delivery of this material. You can also read more about the Physical and Health Education curriculum at: www.curriculum.gov.bc.ca/curriculum.

- I want my child to be excluded from classroom instruction in topics related to sexual health and reproduction and I choose to address these topics with my child at home.
